Eat's Case Partially Submitted in Court - The Comrade was Tortured (Indonesia)

Posted on 2025/10/28 by [darknights](#)

The West Java paramilitary police have submitted the first part of accused anarchist comrade Eat's case to the court. The details are not reported yet but it is known that the comrade is being made into a 'leadership' scapegoat for the fabricated "Chaos Star" frame-up and he is also accused of 'leadership' of the mass insurrection which happened in August 2025. Parts of the legal case are still being held back because the Special Detachment for Anti-Terrorism (Densus 88) is handling the "Chaos Star" case, especially concerning Eat. There's an effort to charge Eat under the terrorism law. This is also why the investigation period against Eat was extended until November 20th 2025. The Prabowo Subianto regime has reopened the old documents about the FAI-IRF attack in Yogyakarta in 2011. What is certain is that Eat was tortured, like the other detained comrades. We have not enough information to confirm the severity of his injuries. What we can confirm, is that despite being tortured Eat did not give anyone's name. Eat is already paralysed in one arm and also suffering from serious health condition. The paramilitary police and Densus anti-terrorist unit are cowards who beat and torture young people in handcuffs. All over the world we are rising up against police bastards, politicians, jailers, banks and corporations!

We demand the freedom of Eat and all the other detainees!

Torturer's hands off the detainees!

Fire to the prisons!
